Curated by Axel Stockburger

Private View: Friday 27 October, 6–10pm

Gallery opening hours: Fri - Sun, 12 – 6pm

### ***Opening night performance by Douglas Fishbone, 9pm***

The group exhibition GROUNDED brings together a diverse range of international artists. It aims to show work that deals with processes of modeling and simulation, activities that form the conceptual backbone of digital culture. However all of the artists involved are tackling this subject with an array of practices that are firmly rooted in physical environments, from architecture to installation thus addressing important elements of digital culture with essentially non-digital means.
